Aqua Fun Avoca Lake

Aquafun is located on Avoca Lake foreshore. An idyllic location, with shady picnic & BBQ areas, shops, cafe's and just 100m from the beach). Avoca Lake is a vibrant coastal lagoon with extensive wetlands. Fish and birdlife abound.

Program : Kayak based Team Building:

Kayak based fun and engaging team challenges and games followed by some free time for use of our extensive range of human-powered water equipment for play or adventure including Stand Up Paddle boards. (See details below)

The activities that we are recommending for the team building session are as follows.

Program details:

: Rubber Duck Hunt (25 mins)

This involves kayaking over a short course retrieving randomly placed rubber ducks. The winning team is not always determined by who retrieves the most ducks. Each duck has differing point values according to numbers marked underneath. The challenge involves teams working together to find and collect ducks and may also involve using tactics to block other teams from acquiring ducks.

: Sausage (or Caterpillar) Race (25 mins)

This entails splitting the group into four groups. A mixture of double and single kayaks are then joined together by short ropes, resembling a string of sausages. The teams then have to navigate a short course racing against each other. The team who masters working in unison is usually the winner.

: Slalom Course (25 mins)

This is a relay race and involves negotiating kayaks around a slalom course of flags. As one team member finishes another starts. The first team to finish wins the challenge. The team members encourage each other, work out efficient change over methods, and efficient navigation of the course.

On completion of these activities free time allows your delegates to swap and choose from our extensive range of Human powered craft. We have a range of paddleboats that sit from one to four people as well as kayaks and Stand-up paddleboards.

This all happens in a safe and sheltered lagoon where you can swap and change your craft from a sandy beach adjoining grassy park with plenty of shady trees.
